VINOLIA PREPARATIONS A FEW WORDS ON "VINOLIA." The reception and widely established substantial reputation of Vinclis are due to the fact that it fulfils a function which nothing has ever done in the asme messure. It is bland and soothing, yet free from narcotics and other toxic ingredients. It is noteworthy that it is not sticky or greasy, and also that it is the only nuguent that will wash off. It is the only agent that will relieve the most intolerable itching every time: thus in all forms of skin irritation its usefulness is supreme. The leading media! men of the world prescribe it. For eczama, baras, piles, chaps, chilblains, &c., it is facile princeps.

Per Tin. 75 cents. FEW WORDS ON "VINOLIA" SOAP. There are scape and scaps—scaps with flowers gured upon them in bas-relief, soaps of lovely tints and rare and attractive perfame, and soaps as cheap as dirt. But. a goodly ontaids is no voncher of a goodly substance. So we find alkalies lurking in even finest toilet soaps, and cauticizing the skin, drying it, and predisposing it to all manner of troubles, and aggravating diseases already established. Vinolia Scap is superfatted, lathers freely, does not crack, and wears away slowly. Another thing: It contains less water than any other seep. It is not generally known that "the cow with the iron tail" has yielded as much soap as milk! There are plenty of soaps containing forty per cent of water. On this scorealone Vinclia Scap is the cheapest of all scaps. In boxes of 3 Tablets, Toilet \$1.25.

NOW ON SALE. IMPERIAL QUARTO. INGLISH AND CHINESE DICTIONARY. WITH THE PUNTI AND MANDARIN TO

PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong. For comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of late years been compelled to coin to express the numerous objects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is fully illustrated and explained, forming exercises for students of a most instructive nature. Both the Court and Punti pronunciations are given the accents being carefully marked on the best principle hitherto attained. The typography displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously

attained, and dispensing with those vast margins and vacant spaces which have heretofore characterized Chinese publications. To illustrate the vast scope of the work the following facts are submitted for consideration:-Chalmers' Vocabulary contains about 16,000 Chinese characters, and Medhurst's English and Chinese Dictionary about 100,000, whilst this work contains more than 50,000 English words, and upwards of 600,000 Chinese characters. Again, despite all the grammars and Orders may be sent to Daily Press Office, where other elementary works as yet published, the it is published, or to any of the following Agents student of this difficult language absolutely requires examples to display the various appli-cations and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as
